Subject: [ActiveRoster Copy] Completing Multimedia Course Requirements
Categories: SVEF

Hello all,

Just wanted to recap the tasks to complete your participation in our Multimedia course. Be sure you:

1. In your Wordpress blog, create two pages: Multimedia and Vocabulary.
2. On the Multimedia Page, write a few sentences to describe what tool(s) you experimented with and what idea or suggestion you tried to apply from Presentation Zen. Also either embed your experiment or provide a hyperlink to where I can view it. You may also email me a copy, if that is easier for you.
3. On the Vocabulary Page, include 3 to 5 terms you ran across in class and/or in your independent study that were new to you or for which you found new meanings or connotations. You can include definitions in your own words or simply link to definitions somewhere on the web.
4. Visit <http://linc50.wordpress.com/> and add your comments to the prompts related to each of the books, Increasing Student Learning Through Multimedia Projects and Presentation Zen.

DEADLINE: As stated in the syllabus, the above items should be completed by **February 27** (We'll say 11:59 PM!). After that, I will be visiting your blogs to see your work and leaving comments.

That's it! If you have questions, email or call.

Best regards,
Michael Simkins
